

# FALCO CITTA

## FALCOCITTA

The new FalcoCitta bench is based upon simplicity and is an exceptionally cost-effective form of street furniture.

With the use of add-on units, the FalcoCitta bench can be expanded infinitely, creating a continuous seating run as long as required.

**MODULAR** | Infinitely Expandable

**SUSTAINABLE** | Hardwood and Recyclable Galvanised Steel

**BUDGET** | Cost-effective Street Furniture

## FALCOCITTA

The FalcoCitta is manufactured from a combination of hardwood and hot-dip galvanised steel. The steel side supports are completely closed.

All steel parts on the FalcoCitta can be powder coated in any of the 192 standard RAL colours.

The FalcoCitta is available in a single unit or can be made as long as required with the use of add-on units.

### Dimensions

Length: 1500mm

Width: 388mm

Sitting Height: 460mm

The FalcoCitta is a surface fix application and can be supplied with concrete blocks for insertion into ground.
